2016
Introduction

Optum360 is proud to present the 2016 Surgical Cross Coder. The popularity of Surgical Cross Coder in recent years indicates that it has become the quintessential one-stop reference for medical coders. Fully comprehensive and illustrated, Surgical Cross Coder links more than 4,000 CPT® surgical codes to corresponding diagnosis codes. This reference is embraced by professional coders working in clinical outpatient, hospital, as well as payer settings.

Surgical Cross Coder is a single repository where every surgical CPT code instantly reveals the most appropriate diagnosis code as well as appropriate codes for ancillary supplies and pharmaceuticals. Surgical Cross Coder is based on the surgery section of Current Procedural Terminology (CPT®). Up-to-date CPT surgery codes link to the following related medical coding systems:

- International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM)
- Healthcare Common PROCedural Coding System (HCPCS) Level II

All coding relationships in Surgical Cross Coder start with the surgery section of the CPT book presenting a general clinical picture of each surgery code. Pertinent surgery-related coding relationships were carefully reviewed and screened for appropriate information. For example, it is clinically unusual for a closed fracture procedure to be performed when an open fracture diagnosis code is reported. This type of unusual association is not included.

Perhaps more significantly, many acute and chronic medical conditions may eventually lead to surgical intervention. Clinical analysts point out that chronic and acute conditions are nearly always aggressively approached medically before surgery is even considered. For this reason, the number of cross-coded chronic and acute conditions is selectively culled in this reference book.

In some instances the data is abridged simply due to the enormity of the listings. For example, diagnosis codes for infections call for additional codes to identify specific organisms. The possible associations are simply too numerous and, as a result, do not appear in Surgical Cross Coder. For further discussion on secondary diagnosis codes, see the ICD-10-CM section later in this introduction.

Some CPT codes are omitted from the listing because consistent and reliable cross links are almost impossible to establish. Unlisted procedure codes are an obvious example. Certain types of add-on codes are also reliable cross links are almost impossible to establish. Unlisted procedure codes are an obvious example. Certain types of add-on codes are also

format allows users to easily navigate its content. Information within the main section ties back to the CPT book and codes are presented in the numeric order of the surgery section.

Sections

Surgical Cross Coder provides linked information to the CPT code range 10021 to 69990—the surgical portion of the CPT book. The codes are divided into the same sections and subsections as the surgery section of the CPT book. For example, the respiratory system section is divided into anatomical subsections including nose, accessory sinuses, and larynx. Larynx is further divided into excision, introduction, endoscopy, repair, and destruction.

Codes and Code Ranges

The data within each CPT code set of Surgical Cross Coder is presented as follows:

- CPT code or code range
- CPT codes and descriptions
- ICD-10-CM diagnostic codes and descriptions
- HCPCS codes and descriptions

For example:

<table>

</table>

As a coding reference, Surgical Cross Coder presents "most likely" scenarios as derived from clinical review. However, Surgical Cross Coder is not a substitute for ICD-10-CM, or any other medical coding reference, and users are urged to regularly consult all available sources. The absence of any specific code does not necessarily indicate that its association to the base procedure code is inappropriate. Assuming all rules of medical coding are followed, excepted diagnosis codes may prove appropriate to a specific code scenario.
Musculoskeletal System

General

20005

2005  Incision and drainage of soft tissue abscess, subfascial (ie, involves the soft tissue below the deep fascia)

ICD-10-CM Diagnostic Codes

K61.0  Anal abscess
K61.1  Rectal abscess
K61.2  Anorectal abscess
K61.3  Ischiorectal abscess
K65.1  Perineal abscess
K68.12  Psoas muscle abscess
M71.88  Abscess of bursa, unspecified site
M71.88  Abscess of bursa, right shoulder
M71.88  Abscess of bursa, left shoulder
M71.88  Abscess of bursa, unspecified shoulder
M71.821  Abscess of bursa, right elbow
M71.822  Abscess of bursa, left elbow
M71.829  Abscess of bursa, unspecified elbow
M71.831  Abscess of bursa, right wrist
M71.832  Abscess of bursa, left wrist
M71.839  Abscess of bursa, unspecified wrist
M71.841  Abscess of bursa, right hand
M71.842  Abscess of bursa, left hand
M71.849  Abscess of bursa, unspecified hand
M71.851  Abscess of bursa, right hip
M71.852  Abscess of bursa, left hip
M71.859  Abscess of bursa, unspecified hip
M71.861  Abscess of bursa, right knee
M71.862  Abscess of bursa, left knee
M71.869  Abscess of bursa, unspecified knee
M71.871  Abscess of bursa, right ankle and foot
M71.872  Abscess of bursa, left ankle and foot
M71.879  Abscess of bursa, unspecified ankle and foot
M71.871  Abscess of bursa, other site
M71.89  Abscess of bursa, multiple sites
M22.2  Planter fascial fibromatosis
M22.6  Necrotizing fasciitis
M22.8  Other fibroblastic disorders
M22.9  Fibroblastic disorder, unspecified
N61  Inflammatory disorders of breast

20100

20100  Exploration of penetrating wound (separate procedure); neck

S00.531A Contusion of lip, initial encounter
S08.541A External constriction of lip, initial encounter
S08.571A Other superficial bite of lip, initial encounter
S01.501A Unspecified open wound of lip, initial encounter
S01.511A Laceration without foreign body of lip, initial encounter
S01.521A Laceration with foreign body of lip, initial encounter
S01.531A Puncture wound without foreign body of lip, initial encounter
S01.541A Puncture wound with foreign body of lip, initial encounter
T20.22XA Burn of second degree of lip(s), initial encounter
T20.32XA Burn of third degree of lip(s), initial encounter
T20.62XA Corrosion of second degree of lip(s), initial encounter
T20.72XA Corrosion of third degree of lip(s), initial encounter

HCPCS Level II Supplies & Services
A4305 Disposable drug delivery system, flow rate of 50 ml or greater per hour
Thyroid Gland

**ICD-10-CM Diagnostic Codes**
- E05.00: Thyrotoxicosis with diffuse goiter without thyrotoxic crisis or storm
- E05.01: Thyrotoxicosis with toxic single thyroid nodule without thyrotoxic crisis or storm
- E05.10: Thyrotoxicosis with toxic single thyroid nodule with thyrotoxic crisis or storm
- E05.11: Thyrotoxicosis with toxic single thyroid nodule without thyrotoxic crisis or storm
- E05.20: Thyrotoxicosis with toxic multinodular goiter without thyrotoxic crisis or storm
- E05.21: Thyrotoxicosis with toxic multinodular goiter with thyrotoxic crisis or storm
- E05.30: Thyrotoxicosis from ectopic thyroid tissue without thyrotoxic crisis or storm

**HCPCS Level II Supplies & Services**
- A4305: Disposable drug delivery system, flow rate of 50 ml or greater per hour

**ICD-10-CM Diagnostic Codes**
- C73: Malignant neoplasm of thyroid gland
- C79.89: Secondary malignant neoplasm of other specified sites
- D09.3: Carcinoma in situ of thyroid and other endocrine glands
- D09.8: Carcinoma in situ of other specified sites
- D34: Benign neoplasm of thyroid gland
- D44.0: Neoplasm of uncertain behavior of thyroid gland
- E01.8: Iodine-deficiency related diffuse (endemic) goiter
- E01.9: Iodine-deficiency related (endemic) goiter, unspecified
- E04.0: Nontoxic diffuse goiter
- E04.8: Other specified nontoxic goiter
- E04.9: Nontoxic goiter, unspecified

**ICD-10-CM Diagnostic Codes**
- C73: Malignant neoplasm of thyroid gland
- C79.89: Secondary malignant neoplasm of other specified sites
